

# WORKSHOP 1

## MASSIVE MAPS

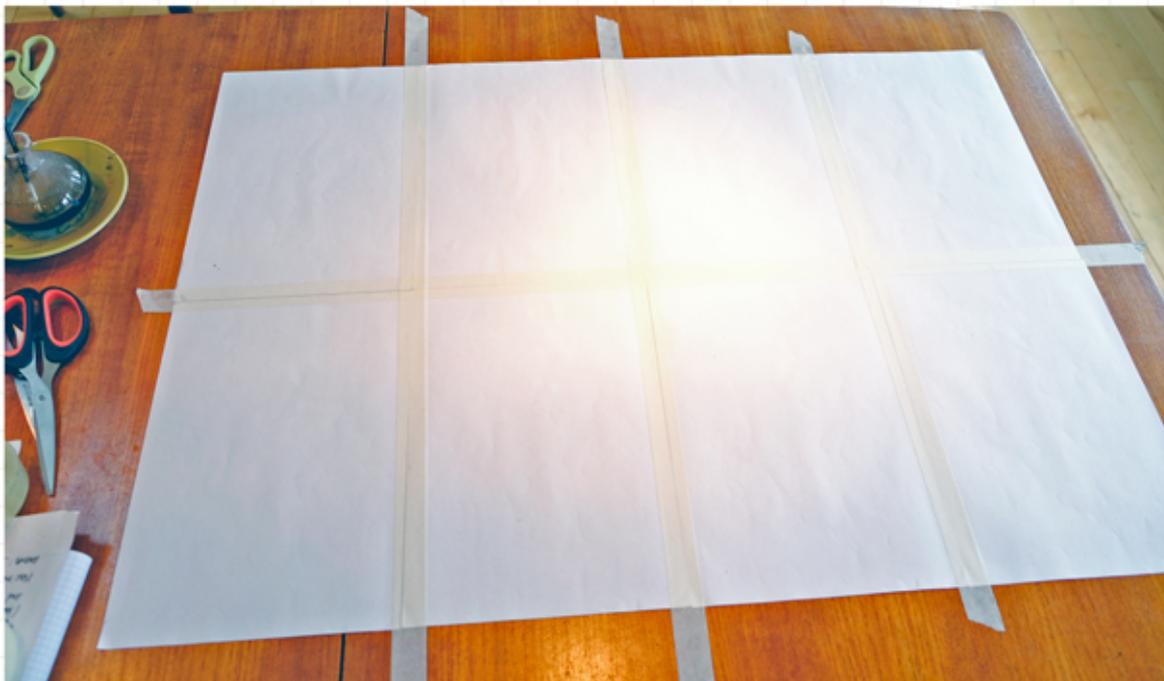

Hi all! In today's session we will be doing some large map-like drawings - and see what can we do with them!

### WHAT YOU'LL NEED:

- 8 sheets of paper
  - paint (any kind - poster, watercolour, etc.)
  - tape
  - felt tip pens, crayons or the like.
- That's all!

Start by taping the 8 sheets to a surface like this (you might want to clear a larger table for this...):

NOW we need to apply some paint!

We will be only lightly smearing it on, like a stain. You can use a wad of tissue (or any paper) to do this.

**BE CAREFUL** not to get too much paint on the paper— we don't want it to get wet!

YOU can lightly sprinkle some paint, too!

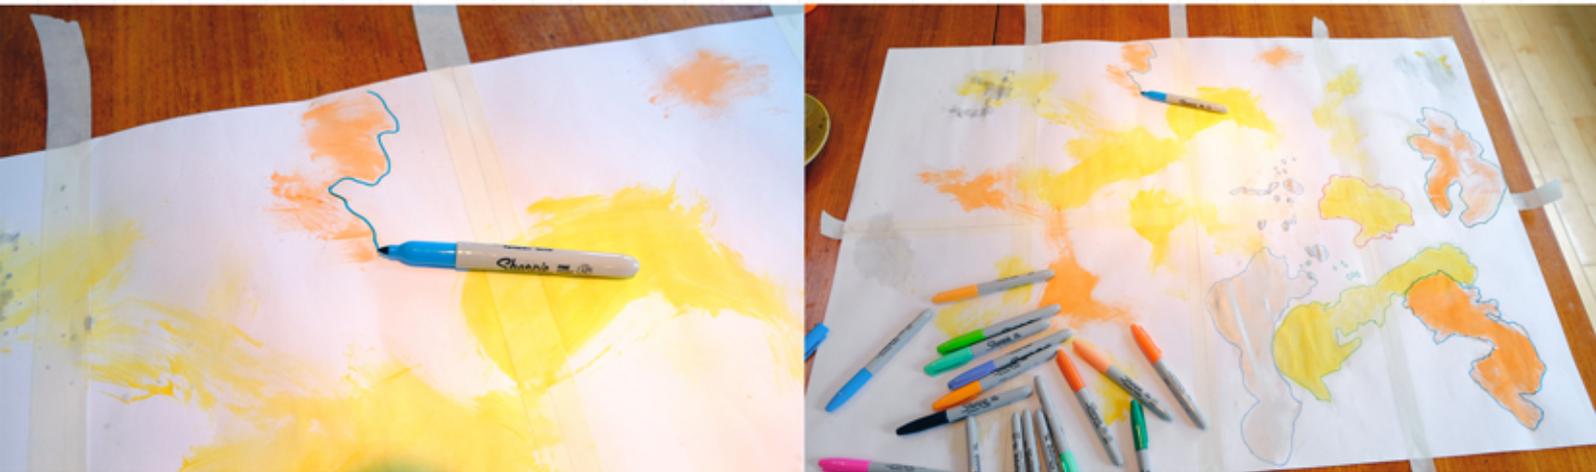

You can use different colours – but leave plenty of white, too! Once you have put the paint down, we will leave the paint to dry.

Come back in 15 minutes!

When you get back, it's time to work on the outlines.

Just circle with a felt tip pen all the smears and dots you have on the paper – these will make the islands and continents for your map. You can make it colorful, too! Once you have them all circled, it's time to do the same on the other side of the map:

...stain with paint, let dry, outline, and lastly – cut and fold the tape, ...

**OUR MAP IS STARTING  
TO TAKE SHAPE!**

One more thing – you can quickly make a wee frame around the drawing, to make it stand apart.

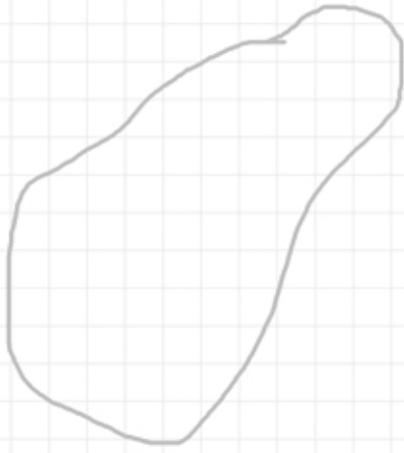

**...AND  
WE ARE  
READY !**

**nice !**

THIS map-like drawing could now turn into many things. What could you use it for?

**READ ON** to get some ideas...!

So, WHAT IS IT?

Is it a  
**PAPER RUG?**

...a  
**MAP BOOK?**

**Write a story !**

You could use it as a poster,

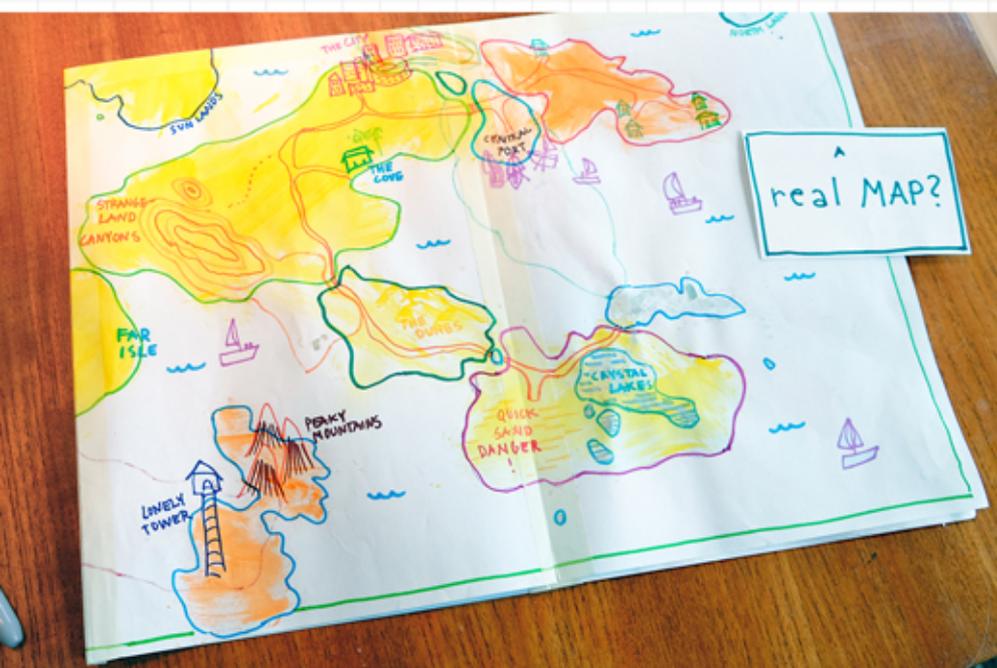

and maybe

draw more

on it ?

Or it could  
make a great  
base for  
**... a game.**

Or maybe it  
will just...

**TA DAH !**

make a perfect  
MAP!
