

WORKSHOP 10

SQUIGGLY DRAWINGS

Let's make some colourful drawings with squiggles!

WHAT YOU'LL NEED:

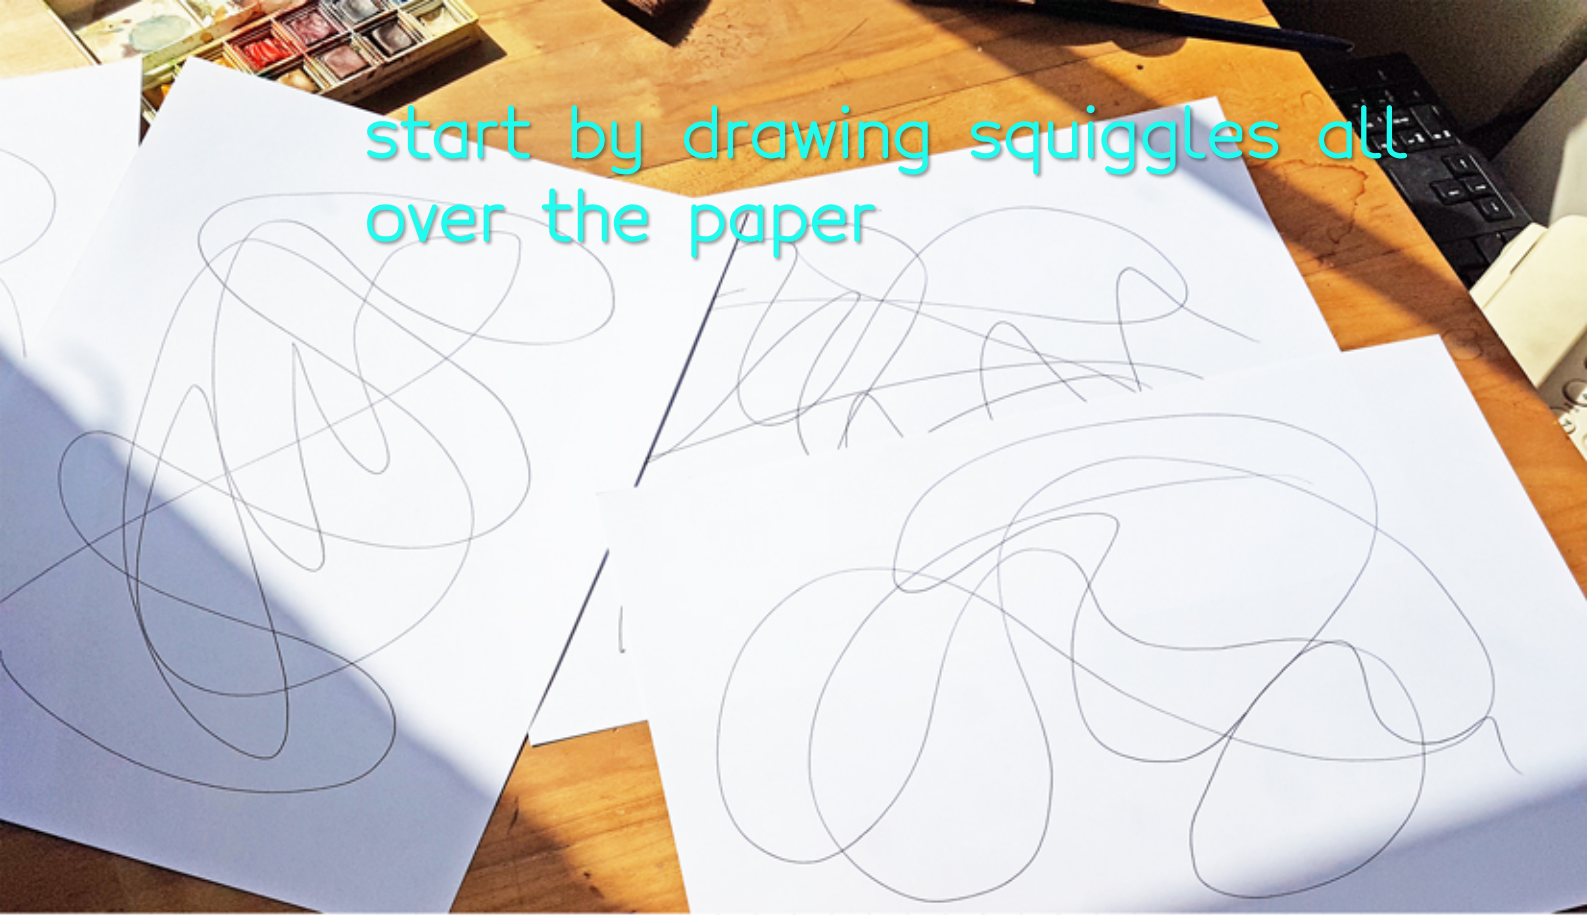

use the colour wheel if you have it! :)

Just some white paper,
a black pen
and any kind
of colours:
paints, felt tip pens,
crayons...

**THAT'S
ALL!**

start by drawing squiggles all over the paper

NEXT, use something – a plate, lid, book, box – to draw shapes into the squiggles.
make sure they stand apart from the squiggles!

then just colour the shapes in!

To make the colours really pop, use
'COMPLEMENTARY' colours in places!

a 'colour wheel' can help you by showing them OPPOSITE
each other: yellow/purple, blue/orange and red/green

nice!

All ready to put on the window!

Or, cut them out and make book marks...

put them on cardboard for MINI-frisbees...

HAPPY COLOURING!
